

Panorama

IGP HAUTE VALLÉE DE L'AUDE

History

Panorama is a survey of our great high-altitude terroirs and their grape varieties. This range is the expression of parcel selections from our hillside plots in the Upper Aude Valley. Born on the heights of Roquetaillade, this wine captures the essence of our high-altitude vineyard, with the imposing Pyrenees range as a backdrop. A true Panorama!

Vineyard

Our parcels, cultivated using organic farming methods, are located on clay-limestone soils from our high-altitude terroir in the Upper Aude Valley.

Grape varieties

Pinot Noir

Vinification

This Pinot Noir is obtained through the most natural winemaking methods possible to allow the terroir's typicity to shine through. It will then benefit from a light 4-month aging process in barrels.

Tasting notes

Bright red with ruby reflections, offering a smoky nose and fresh fruit aromas, its palate reveals itself as silky and complex. An approach worthy of the great terroir Pinot Noir.

Food pairing

An Iberian charcuterie platter, roasted duck, or even a gourmet beef fillet Rossini could be the perfect companions to this Pinot Noir. Its freshness and subtle smokiness will also delight you alongside a cheese platter. Extend the pleasure by pairing it with a square of dark chocolate.
